# GREEN CLUB

*“Being green and clean is not just an aspiration but an action”*

The Green Club is a student organization dedicated to promote environmental awareness, conservation, and sustainability. We strive to educate our peers about the importance of preserving our planet for future generations by engaging in activities that are fun and educational.

**JANUARY** - The green club consists of 109 students. On the first day of green club the students were given a brief introduction about the mission and the vision of the green club by the staff coordinator, Mr. Soora Balachander sir. The students were taught about the various ways of conservation and the importance of human role in it. The 2nd week of green club, we conducted a drawing competition for the students on the topic " environment protection ". We were glad to see many students take part enthusiastically.

**FEBRUARY & MARCH** - the students enjoyed an ice breaker. It was necessary for the students to comprehend the importance of exercise or to indulge in outdoor activities and free up their mind. We conducted a game named " ice and water", an ice breaker and an activity for them to enjoy and revive themselves. We have conducted an elocution competition on the topic " What is the role of an individual in conserving water and energy".

Students were asked to get a sapling for the plantation week and to understand the importance of growing trees. The students will be introduced to various trees in the college through a fun activity called " The treasure hunt.
