MESSAGE FROM THE PRINCIPAL

Rev. Fr. Dr. L. Joji Reddy SJ
Principal - Loyola Academy

MARCHING TOWARDS EXCELLENCE

The outcome of Jesuit quality Education stands on four pillars of conscience, competence, compassion, and commitment. In his meditative learning, St. Ignatius of Loyola felt that God dealt with him like a schoolmaster to see things in the eyes of his GURU.

Conscience is the characteristic value that helps the teacher and the learner bring out the hidden wisdom from mother nature when they collaborate in unison.
Competence is the value that helps Guru and the disciple to unite their minds and hearts to bring forth the best fruits to help humanity at large.
Compassion is the value that helps the instructor and the novice to reach the unreachable in guarding the life and the creation which the creator has invented and created.
Commitment is the value that helps the pedagogue and learner to transform themselves as Agents of change.

The members of Student Council 2023 themselves are vibrant, and dynamic in learning and incorporating these above-mentioned values through participatory learning. Vibrancy is understood in that any task assigned to them is done meticulously without missing the point of assigned work and dynamism is understood in that their vision, mission, and goal are clear and they dedicate themselves to achieve goals by applying dynamic nature overlooking the shortcoming and pitfalls.
Every challenging assignment will have an uphill task dedication, responsibility, accountability, and passion and love for the task will help a person to come out with flying colors. Dedication can be attained by sitting at the feet of the GURU and learning simplicity act of commitment. Responsibility can be envisaged when you believe in the life of the Guru and his deeds and carry out the task that is been assigned Accountability is the accomplishment of the task with love and passion that could be useful to life and humanity.

MESSAGE
HEAD BOY & HEAD GIRL

It wasn't an easy ride. It was indeed a rollercoaster. Day in and day out I had to give my best for the last two years to develop myself in the way I lead, communicate, socialize, learn, engage, act, participate, acknowledge. To stand out from 6000 students is never an easy job. Tried to put myself in every avenue in a new and unique way, had to be very realistic as well as artistic in my moves. And it was not easy. Many-supported and lot many criticized. The strive never stopped.My first thought when I became the HEADBOY-My council should stand different, unique, creative and give the students a new experience in every event, activity. And we did that, 30+ events in the academic year, introducing public events on a large scale, and as a dream come true we got the "BEST COUNCIL AWARD" A forever cherishable leadership experience that taught me many valuable lessons .

Do not just DREAM to think but dream to act, then believe on what you want and see it turn into reality. All you have to do is to trust in the process and be patient for the success to surrender at your door step. It's a privilege to serve this institution as a Head Girl and also to be the voice of the unheard. It has always been challenging to try make up things at it's best and also to set the bars higher than ever. When ever we think to quit any situation/challenge that's when we actually have to start working for it. Just like my team lead and my entire team has never given up for anything that has come our way. We all stood by each other so strong, up lifting one another that no hurricane could ever bring us down, as this gave us incredible strength and determination. By this, I want to remind you all the importance of being empathetic and kind. We never know what one is going through, a simple act of kindness can go a long way in brightening someone's day.

Thankyou for entrusting us with the privilege of serving you as your LEADERS.

It has been an honour to work alongside such an amazing group of individuals.
