1. Department Activities:

The department of B.Sc. Computer Science & Cognitive Systems has conducted an **"Online Orientation Program"** for First year students on 1st November 2021.

Purpose: The key objective of the orientation program is to give the importance and benefits of the new course. The purpose of this program is to give students the required awareness and career prospects of the new course which ensures that it helps the students to be industry ready.

Report: An "Online Orientation Program" was conducted by the department to brief the students about the course which would ensure that the students graduating from this will gain knowledge in not only the core topics of Computer Science, but also develop an equal appreciation of current industry standards.

The resource person **Mr. Stephen Moses Dinakaran, Program Leader for "Application Interface Program" from TCS**, explained about the course which was designed with an in-depth understanding of real time IT infrastructure domains blended with practical lab experiences in the area of:

- Computer Network & Operating System
- Virtualization & Cloud Computing
- Infrastructure Management, Process Management & Client Relationship Management
- Artificial Intelligence & Machine Learning
- Programming (C, C++, JAVA, PYTHON, DBMS) & Software Testing.

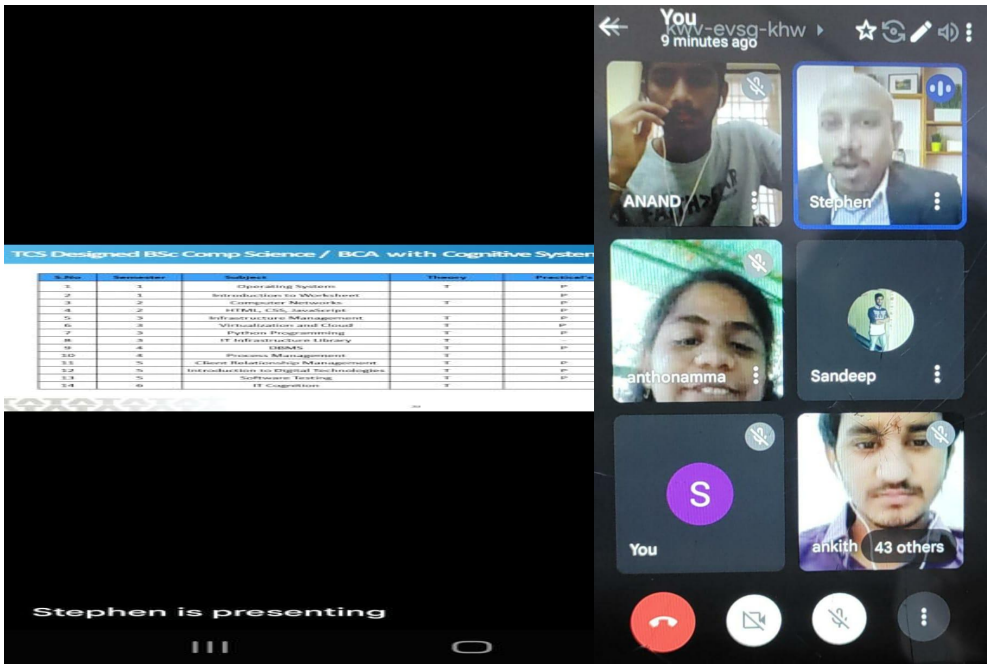

He even explained about that the field of computer technology is fast changing due to innovation and automation; the new technologies like Artificial Intelligence, Machine Learning, Block Chain Technology incorporated in this program play a pivotal role in the career of students. He told that the different activities will also be implemented like Expert sessions on industry integrated papers, Industry Visits, Internship and an Exclusive recruitment drive for the students.

This "Online Orientation Program" was arranged for all the first year students of departments of B.Sc. Computer Science & Cognitive Systems.

Review: This talk was very helpful as the students got to know about the importance and prospects of this course. Students understood the special features of this program include, industry ready syllabus drafted in collaboration with TCS that help the students being readily employable. This facilitates more placement opportunities after completion of the course.

The students have been benefitted through the interaction with the resource person during the session which motivated the students and helped them in understanding skills to be acquired for good placements.

5.PLANET:

It is a program where every year students from most of the departments of Loyola Academy pay a visit to an orphanage. College gather money from students and they donate it to the orphanage.

This year we the department of Bsc Computer Science and Cognitive System took the initiative to organise this planet program for our department. Where students from both the years came forward and donated some money to the orphanage. We went to a Home Disabled Orphanage in Secunderabad on 22nd Feb 2022 during college hours. We departed from college at 10 a.m and reached our destination by 10:40 am. We were accompanied by our HOD Sir Mr. Sandeep and class mentor Mrs. Varalakshmi and Stephen Sir from college. As we reached we were asked to see the place, the people and the conditions in which they were living. There were more than 300 people living there with some or the other problem. Some of their mental condition was not good, some of them were physically handicapped, some of them can't even speak properly from kids to older people. After seeing them we can't express that feeling what we went through. It was so painful seeing them in such conditions. After seeing the place we students interacted with them. We met so many new faces. We danced, singed and clicked photos with them. Even after knowing that they have been abandoned by their families or did not have home to go. They now considered this place as their Home and there were so many happy faces because they are the family now. After interacting with the people we went inside a Church were asked to sit. There we were introduced to the Head of the disabled home "Fr. M. Xavier SVO". He gave a very nice lecture on Indian political history for 1 hour. After the orientation the CRs and ACRs of both the years handed the amount we collected from the students and we also distributed the daily utilities i.e., we gave soap cases, Tiffin boxes and plastic water glasses. We also gave them biscuits and wafers. After that we had our lunch and many students even served the lunch to people and at around 1:45 pm we left the place and reached our college in college bus at 2:30pm. It was a beautiful program and we all enjoyed interacting with those people and getting to know them and their situation.

We thank our teachers and college for supporting us and making the program successful and also the 1st year CR : Aman and ACR : Pravalika and 2nd Year CR : Elizabeth and ACR : Vamshi and few more students who played the major role in making the program successful.
