B.COM COMPUTER APPLICATIONS

The Department of Commerce Computers was set up in Loyola Academy 2010. This programme takes advantage of the inextricable link between commercial success and IT in today's world. We provide the right blend of Commerce and Computer Sciences to give students the analytical & technical skills required in an increasingly competitive workplace.

VISION:

To enhance the analytical and technical skills of the students to make them globally competent both in the field of Commerce and Information Technology.

MISSION:

To enhance the analytical and technical skills of the students to make them globally competent both in the field of Commerce and Information Technology.
