## Odd Semester Report

Loyola Academy started the Remedial teaching which is an educational programme for increasing the academic performance of poorly performing students in a curriculum. Remedial teaching is finding specific learning difficulties in low achieving learners who are lagging behind in academics and providing them with necessary support and guidance to bring their academic performance closer to the required standard and to prevent them from occurring in future.

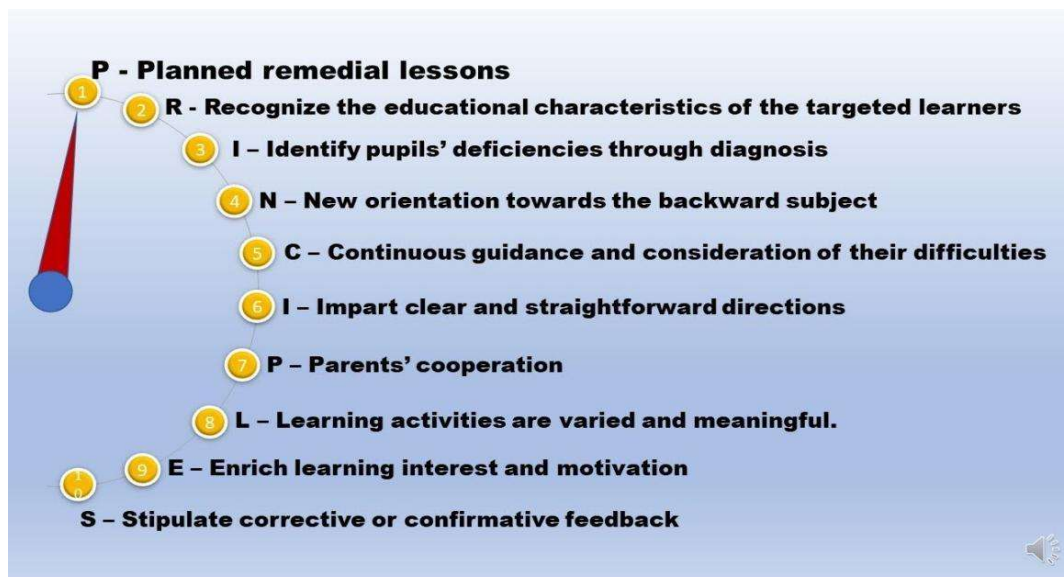

Remedial classes are conducted in different Subjects to support the Students in clearing their backlogs. Students shown lot of interest .Faculty gave tips as well as material for the students. More than 60% of the students who have attended got benefit and they passed in the exams.

To increase attendance for the classes a brief motivation lecture is organized with the key note address by HODs of their departments.

### Objectives of Remedial classes:

- Remedial classes can help students to improve their academic performance, including their grades and test scores.
- Remedial classes can help students build confidence by helping them to understand subjects that were previously difficult.
- Remedial classes can provide personalized attention to help students address difficulties in particular subjects.
