PRAYER TO GOD THE FATHER

Our Father in heaven
Holy be your name
Your kingdom come
Your will be done on earth
As it is in heaven.
Give us today our daily bread.
Forgive us our sins
As we forgive those who sin against us.
Do not bring us to the test
But deliver us from evil. Amen.

PRAYER TO LOVE & SERVE GOD

Loving God! Teach me to be generous
Teach me to love you and serve you as you deserve
To give and not to count the cost
To fight and not to heed the wounds
To toil and not to seek for rest
To work and not to look for reward.
All I want to know
Is that I do your most holy will.
(Prayer of St. Ignatius of Loyola)

A TEACHER'S PRAYER

O God, Enable me to teach with WISDOM
For I help to shape the mind.
Equip me to teach with TRUTH,
For I help to shape the conscience.
Encourage me to teach with VISION,
For I help to shape the future.
Empower me to teach with LOVE.
For I help to shape the world.

1. Eligibility to Appear for the Semester-End Examinations (SEE)

i. Attendance Requirement

A student is eligible to appear for the Semester-End Examinations (SEE) only if he/she has secured a minimum of 75% attendance. Failure to meet this requirement will result in the student being prohibited from appearing for the examination and he/she will be required to repeat the semester in the following academic year. Also, the student's name will be removed from the rolls for the subsequent semester in the academic year.

Note: All fourth-year agriculture students must ensure a minimum of 85% attendance in the AELP, Industry Internship and RAWE programs, as per academic requirements.

In cases of serious illness or accident, a minimum attendance of 65% will be considered, provided prior approval has been obtained from the Principal/Vice-Principal. In such cases, an orginal Medical Certificate from a registered medical practitioner, along with the relevant prescription, must be submitted on the first day the student returns to class. Such students will be condoned to appear for SEE, after paying the prescribed condonation fee. Minor ailments such as cold, cough, or fever will not be considered as valid reasons for reduced attendance. Late submission of medical certificates, or submission of certificates just before the SEE, will NOT be accepted.

Note: Attendance can be tracked through the ERP system. It is the **responsibility of both the student and the parent/guardian** to monitor it regularly. In case of any discrepancy regarding attendance, it is the responsibility of the student to get it rectified by contacting the HOD / Block In-charge / Vice-Principal / Dean concerned.

Marks for attendance: Marks are awarded for attendance in internal assessment to encourage regularity and consistent engagement in the learning process.

Attendance Marks									
Percentage	Marks	Percentage	Marks	Percentage	Marks	Percentage	Marks	Percentage	Marks
75.1 - 77.5	1	80.1 - 82.5	3	85.1 - 87.5	5	90.1 - 92.5	7	95.1 - 97.5	9
77.6 - 80.0	2	82.6 - 85.0	4	87.6 - 90.0	6	92.6 - 95.0	8	97.6 - 100	10

The marks for attendance, as outlined above, are scaled down to 4 marks in each course for the final computation in the Continuous Internal Assessment (CIA).

ii. Marks requirement in Continuous Internal Assessment (CIA)

In UG programs, a student is eligible to appear for the Semester-End Examinations only if he/she has secured a **minimum aggregate of 40%** marks in the total Continuous Internal Assessment (CIA) of all courses, including practical courses in that semester. Students in PG programs do not have this eligibility requirement.

Continuous Internal Assessment (CIA) accounts for 40 marks, while Semester-End Examination (SEE) accounts for 60 marks of the overall marks in both theory and practical courses.

The division of marks for the CIA components is as follows:

CIA Components for all UG and PG courses (Theory) - Total Marks: 40

Component	Marks Allotted
Mid-Semester I	12.5
Mid-Semester II	12.5
Case Study / Group Discussion / Multiple-choice Questions (MCQ's)	05
Assignment	03
Seminar /Viva-voce	03
Attendance	04
Total	40

CIA Components for all UG and PG courses (Practical) - Total Marks: 40

Component	Marks Allotted
Attendance	05
Observation / Record Book	05
Practical Skills Acquired	10
Pre-final Practical (3 hours)	20
Total	40

iii. Examination Registration Requirement:

A student is eligible to appear for the Semester-End Examinations only if he/she has registered for all required courses - both theory and practical, whether regular or supplementary. Registration is to be done through the ERP portal, and the exam fees need to be paid on or before the announced date. If a student fails to complete the registration or fee payment, he/she will not be allowed to attempt the Semester-End Examinations.

Students who do not have access to the ERP portal, for any reason, should register for the examinations by approaching the CoE office.

2. Semester-End Examinations (SEE)

Under normal circumstances, Semester-End Examinations (SEE) are held in October/November for odd semesters and in March/April for even semesters. The Semester-End Examination (SEE) accounts for 60% marks in the total score of the course.

3. Passing Criteria for a course in a semester

Theory course: A student is considered to have passed a theory course if he/she achieves a minimum of 40% in the combined total of the Continuous Internal Assessment (CIA) and the Semester End Examination (SEE) for the course (40 marks out of 100). Additionally, the student must obtain at least 40% of the total marks in the Semester End Examination (24 marks out of 60).

Practical course: A student is considered to have passed a practical course if he/she achieves a minimum of 40% in the combined total of the Continuous Internal Assessment (CIA) and the Semester End Examination (SEE) for the course (40 marks out of 100). Additionally, the student must obtain at least 50% of the total marks in the Semester End Practical Examination (30 Marks out of 60).

4. Rules for Promotion to the following semester

To be eligible for promotion to the next academic year (Semester II to III, Semester IV to V, Semester VI to VII), the student should have acquired a minimum of 25% of the total credits of all the courses (Theory and Practical courses) offered up to that semester.

Failure to secure at least 25% of the total credits will result in detention. In such cases, the student will not be promoted to the next academic year (odd semester) until the minimum credit requirement is fulfilled.

5. **Supplementary (Backlog) Examinations:** Students who fail in any subject in any semester may appear for supplementary examinations only in the subsequent even semesters, after having registered for the examinations and paid the examination fee. No supplementary examinations will be conducted in the odd semester.
6. **Maximum duration for Program Completion:** The maximum duration for completing a program is as follows:

i. For a 3-year degree program: 3 years, with an additional 2 years allowed as an extension (total 5 years).

ii. For the 4-year B.Sc. Agricultural Science program: 4 years, with an additional 2 years allowed as an extension (total 6 years).

iii. For a P.G. program: 2 years, with an additional 2 years allowed as an extension (total 4 years).

Students who fail to complete the program within the maximum allowed duration will lose their admission and will not be eligible to appear for any further examinations. In such a case, the student will not be eligible to obtain the degree.

7. **Instant Examination:** Final-year students who have backlog(s) (theory or practical) in their final semester are eligible to appear for an Instant Examination. This provision offers a one-time opportunity to clear up the failed course immediately and avoid any delay in graduation.

   Eligibility is restricted to students appearing for the first time in the final semester of their respective programs (Semester VI or Semester VIII for B.Sc. (Hons.) Agriculture). The Instant Examination is conducted after the declaration of all results, including revaluation results.
8. **Revaluation:** UG Students who wish to have their Semester-End Examination answer scripts revaluated can do so by registering for the revaluation and paying the prescribed fee after the publication of results, within the prescribed time. The payment of fees for revaluation should be done in a single transaction for all the courses for which revaluation is applied.

   Students who do not have access to the ERP portal, for any reason, should register for the revaluation by approaching the CoE office.

   No re-evaluation will be permitted for Continuous Internal Assessment components, practical examinations, projects, internships and non CGPA Certificate Courses (NCCC).

For PG students, there is no provision for revaluation as each answer script is evaluated by two examiners.

9. Re-Examinations for Mid-Semester Examinations

In principle, there is no provision for re-mid examination. However, under extraordinary circumstances such as an accident, grave illness, or death in the family, and for genuine reasons, the Principal/Vice-Principal may, at their discretion, decide whether to permit a re-examination on a case-by-case basis.

In such extraordinary situations, the Principal or Vice-Principal must be informed immediately, and a written permission for the student's absence from the examination must be obtained. The decision of the Principal/Vice-Principal is final and binding.

To apply for a re-examination, the student, along with their parent or guardian, must approach the Vice-Principal with all necessary supporting documents. The Vice-Principal, in consultation with the Dean and the Head of the Department concerned, will analyse the case and forward it to the Principal. The Principal will take the final decision on whether to permit the re-examination and communicate the same to the Controller of Examinations on a case-by-case basis.

No re-examination will be conducted for Semester-End Theory or Practical examinations under any circumstances.

To discourage the misuse of the provision for re-mid examinations a nominal fee would be collected. And the examinations will be conducted with a reduced weightage of marks. However, the above conditions do not apply to students approved for re-mid examinations on account of college-related activities like NCC, NSS, Sports, Voice for Girls / Boys etc.

10. Malpractice During Examinations: Engaging in any form of malpractice or violating the examination rules and regulations will result in serious consequences, including the cancellation of the examinations.

11. Grading: Under the Choice-Based Credit System (CBCS), providing the Semester Grade Point Average (SGPA) and Cumulative Grade Point Average (CGPA) system have been in effect since the academic year 2016–17. Calculation of SGPA and CGPA is based on grading. Detailed method of computing is given in the college handbook.

These schools consist of eminent faculty members who are industry experts and academic scholars committed to imparting comprehensive knowledge and practical skills to our students. The College offers 40 programmes, with 33 in the Undergraduate section and seven in the Postgraduate section. The College has myriad of skill-based Certificate courses, accounting for 50 in number. LOYOLA ACADEMY

VISION:

To form men and women for and with others through integral education which imparts academic excellence, spiritual growth, social conscience, and ethical leadership.

The Philosophy of the Vision of Loyola Academy:

1. Loyola Academy evolves a process of learning based on the exercises that begin with freeing persons from biases and guiding one to make life's choices through discernment.

2. Excellence in education is not just the accumulation of knowledge by memory but a deeper understanding that makes a student wiser than knowledgeable.

3. Students are called to do their very best and to always strive for personal excellence in all aspects of life – intellectual, emotional, moral, and physical. This personal excellence leads to concern for others. It is love in service to the people on the periphery.

4. The Ignatian tradition guides a formative process in and through teaching, learning and governance that emphasize the awareness of God's active presence in human life in a positive and life affirming ways.

5. Self, God, others, and Nature altogether form a quadratic locus in which the learner forms his/her personality that influences social change.

6. The Leader in Ignatius tradition offers a paradigm for making choices through discernment in a spiritual context, between several possibilities, all of which are potentially good.

MISSION:

To mould our students as Global Citizens with Competence, Conscience Compassion and Commitment. Preferential focus is on rural, socially, and economically underprivileged students.

Philosophy of Mission:

The education of men and women of competence, conscience, commitment and compassion is imbued with the desire to seek all things for the greater glory of God, representing the enduring aspiration of Loyola Academy.

The 4 "C"s of the Mission Statement are :

1. COMPETENCE
2. CONSCIENCE
3. COMMITMENT
4. COMPASSION

OBJECTIVES:

We fulfill this Vision-Mission

- through a more integrated formation in academics and spirituality, as well as through value-based training and social commitment;
- by creating an ambience for Ignatian Pedagogical Paradigm, namely "Learning and evaluation" and by implementing the following:
  - Developing in students, knowledge as well as skills
  - Guiding them to grow in wisdom and harmony
  - Nurturing in them a deep sense of right values
  - Directing them in fostering healthy relationships
  - Celebrating with them diverse forms of faiths and culture
  - Imparting then holistic education.
  - Motivating them to become aware of the socio, cultural, religious, economic and environmental realities, locally and globally, and to respond to them creatively and constructively.

Five Elements of Ignatian Pedagogy

Context

Since human experience, always the starting point in a Jesuit education, never occurs in a vacuum, educators must know as much as possible about the actual context within which teaching and learning take place.

Teachers need to understand the world of the learner, including the ways in which family, friends, peers and the larger society impact that world and affect the learner for better or worse.

Experience

Teachers create the conditions whereby learners gather and recollect the material of their own experience in order to distil what they understand already in terms of facts, feelings, values, insights and intuitions they bring to the subject matter at hand. Teachers later guide the learners in assimilating new information and further experience so that their knowledge will grow in completeness and truth.

Reflection

Teachers lay the foundations of learning by engaging students in skills and techniques of reflection. Here students use memory, understanding, imagination and feelings to grasp the essential meaning and value of what is being studied, to discover its relationship to other facets of human knowledge and activity and to appreciate its implications in the continuous search for truth.

Action

Teachers provide opportunities that will challenge the imagination and ignite the will of the learners to choose the best possible course of action from what they have learned. What they do, as a result, under the teachers' direction, while it may not immediately transform the world into global community of justice, peace and love, should at least be an educational step towards that goal even if it merely leads to new experiences, further reflections and consequent actions within the subject area under consideration.

Evaluation

Daily quizzes, weekly or monthly tests and semester examinations are familiar instruments to assess the level of mastery of knowledge and skills achieved. Ignatian pedagogy, however, aims at evaluation which includes but goes beyond academic mastery to the learners' well-rounded growth as persons for others. Observant teachers will perceive indications of growth or lack of growth in class discussions and students' generosity in response to common needs much more frequently.

ORIGIN AND GROWTH OF LOYOLA ACADEMY

Loyola Academy (LA) is managed and administered by the "Loyola Academy Society, Hyderabad" belonging to the members of the Society of Jesus.

The Society of Jesus is an International Catholic Religious organization of men founded in 1540 by **St. Ignatius of Loyola.** These religious men, popularly known as **"Jesuits,"** are about 17,000, spread all over the world, of whom over 4000 are working in 20 provinces and 2 regions of India. In Telangana and Andhra Pradesh states alone, about 220 Jesuits are working in Schools and Colleges, Youth and Social Service centres, Spirituality and Counselling centres and in Parishes and Missions of the Catholic Church.

LA was founded by **Rev Fr TJ Baliah SJ** in 1976 with Intermediate Courses, also offering an Associate Degree in Chemical Technology. It then developed into a Degree (1978) and PG (1993) College. LA is situated in Old Alwal, Secunderabad, Telangana, India.

LA is blessed with a fairly spacious campus of 132 acres, 38 guntas of land, with playfields and a research farm. It is affiliated to the prestigious Osmania University. LA Degree College was granted autonomous status in 1992 by the University Grants Commission. The same autonomy was granted to the PG College in 2010 by the Osmania University. Appreciating the achievements and qualitative pursuit of higher educational needs, the UGC has awarded LA a rare status known as a **"College with Potential for Excellence"** (CPE) in the year 2008 and has also extended CPE phase II projects in the year 2015.

In addition to this, National Assessment and Accreditation Council accredited this college in the year 2005 and reaccredited in 2011, and for the second time, awarded 'A' grade (3.50 out of 4.00 CGPA), in recognition of its excellent contribution to the cause of higher education.

LA re-accredited with 'A' Grade by NAAC for III cycle in the academic year 2019-2020, was also granted an extension of autonomous status for another five years (2019-2024). Besides, it is a college ranked thrice by NIRF.

JESUIT EDUCATION
FOR TRANSFORMATION OF PERSONS & SOCIETY

THE WORLD VISION OF THE JESUITS

1. Dedication to Human Dignity from a Jesuit Faith Perspective

- Men and women are created in love to reflect the wisdom and goodness of God.
- The continued presence of Jesus Christ's Spirit enhances human dignity.
- Men and Women are
  - ⁕ enfolded in God's care and Compassion.
  - ⁕ offered in companionship as brothers and sisters and
  - ⁕ empowered to complete the compassionate mission of Jesus Christ on earth.
- Jesuits believe that their colleagues from other religious and ethical traditions share this dedication to human dignity and work for its implementation.

2. Reverence for and an Ongoing Reflection on Human Experience

- A Jesuit College must be a place of intellectual honesty, pluralism, and mutual respect/reverence
- Reverence was pivotal for St. Ignatius of Loyola; reverence for him was an attitude of regard
  - before the majesty of God and
  - for all that God has created both as a gift from God and as a way to God's presence.
- The Jesuit ideal of seeking and finding God in all things is inspired by this sense of reverence.
- This ideal
  - promotes a rigorous yet sensitive attention to the demands of the professions and of technology
  - exults in the world of creative energy in literature and music, in art and theatre, in business and in the sciences
  - engages the world both locally and globally

3. Creative Companionship with Colleagues

- The contemporary Jesuit College is committed to creating a community of dialogue and service

- Service signifies a mutual willingness among faculty, staff and administration to enhance the entire environment of learning and service within the college community and between it and the world outside.

4. Care for Students

- At the heart of the Jesuit educational ideal is community care for the integral development of the students.
- Faculty, staff, administration, and board members play a significant role in student development.
- In their relationship with students, faculty and staff inevitably model what they value.
- In communicating those values, they act as mentors to their students.
- The following student concerns demand our attention and response:
  - the pursuit of wisdom and competence
  - the quest for psychological maturity and spiritual depth
  - the desire for ethical grounding and
  - the challenge of social solidarity and global awareness.

5. Well-Educated Justice and Solidarity

- Justice, primarily, is God's saving action for men and women.
- Each Jesuit College must examine its own social environment, including its own commitment to justice and solidarity.
- Solidarity with the rest of the human race means:
  - working together as a human family to meet effectively the challenges of worldwide hunger, ignorance, disease, and violence;
  - extending care to those who are close at hand and who have been ignored or abandoned within our society; and
  - a commitment to change the economic, political, and social structures that enslave, dehumanize, and destroy human life and dignity.
- More and more Jesuit institutions provide supervised opportunities for their students to meet and to learn from people from other economic and social groups through :
  - community service,
  - love for environment,
  - service-learning projects,
  - immersion experiences and
  - faculty-student research projects.

ST. IGNATIUS OF LOYOLA

(1491-1556)
Founder of the Society of Jesus
Student & Teacher - Soldier & Saint

Passion for Life

Iñigo López de Loyola was born in the Basque Country, Spain, in 1491. The youngest of 13 children, Íñigo López was brought up by María de Garín, the local blacksmith's wife, after his own mother died soon after his birth. He later became a page in the service of a relative, Juan Velázquez de Cuéllar, treasurer of the kingdom of Castile. As a young aristocrat, Ignatius had a "love of martial exercises and a vain glorious desire for fame." At this period he framed his life around the stories of adventures. Joining the army at seventeen he strutted about "with his cape slinging open to reveal his tight-fitting hose and boots, a sword and dagger at his waist."

Grit and determination in times of adversity

His diplomacy and leadership qualities made him very useful to Duke Antonio Manrique de Lara. Under the Duke's leadership, he participated in many battles without injury. But when a French-Navarrese army stormed Pamplona's fortress on May 20, 1521, a cannonball wounded one of his legs and broke the other. He was thirty, then. Soldiers carried the wounded Iñigo to his ancestral home to recuperate from wounds received in the battle. He was very concerned about the injuries and had several surgical operations, which were very painful in the days before anesthetics.

Passion for reading leads to a desire to change

During his days of recovery he asked for books on chivalry, his favorite reading, but there were no such romances in the Loyola castle in Spain. Instead he was given the only books in the house: the "Life of Christ" and a collection of the "Lives of the Saints." Iñigo set about reading them: as he continued to read these books, he continued to reflect. He asked himself "If St. Francis could do this, why not I? If St. Dominic could do this, why not I?" The more he reflected, the more did God become the centre of his life. His injury at Pamplona was God's way of telling him that He wanted him in the service of Jesus Christ, the eternal King.

WHERE DID IT ALL BEGIN? AND WITH WHOM?

WITH IGNATIUS OF LOYOLA OF COURSE!

A romantic knight, now a passionate Pilgrim of God

By March 1522, Iñigo's right leg was sufficiently healed for him to put his plan into action. Every knight in his time would stand guard at the door of his lady-love. For Iñigo it would no longer be the earthly ladies. On 24 March he went to Mother Mary's altar at Montserrat, and spent the whole night in a vigil of arms, kneeling or standing before her. At dawn he offered his sword and dagger to Our Lady, hanging them on the chapel wall. He gave the fine clothes he was wearing to a beggar and clothed himself in his sackcloth-tunic. A romantic knight now became a passionate Pilgrim of God.

A docile Student of the 'school-master' God

Iñigo became God's student. On his way to Barcelona he stopped at Manresa, a town on the banks of the river Cardoner. There he spent ten months in total communion with God. He spent seven hours a day in prayer in a cave he had discovered. For several hours a day he helped the sick in the hospital of St. Lucy. God - he says- was like a school master teaching him step by step. He read other spiritual books, among them the "Imitation of Christ," a book which he always esteemed. Whenever a passage from his reading particularly struck him, he jotted it down in the notebook he carried. In the same note book he recorded his meditations and the illuminations he received in prayer. It was from this little book that his famous Book of Meditations, called the "Spiritual Exercises," would later emerge.

WHAT ONE STUDENT WHO HAS PASSION FOR GOD AND FOR NOBLE THINGS IN LIFE CAN DO!

Passion to live and work in his Master's Holy Land

Iñigo visited the Holy Places in the ancient city of Jerusalem. He prayed and walked on the streets where Jesus his Master had walked. Since he was unable to remain in the Holy Land, Iñigo, now thirty-three years old, had to chart his future anew. His only desire was to help people to come closer to God; so he decided to study for priesthood. At the age of 34 he began to study Latin grammar, sitting in a class with young boys.

Passion to lead people to God makes him a dedicated Student

When he had finally mastered the elements of Latin, he moved to the renowned University at Alcalá. In that great

University City, Iñigo gathered students and grownups about him, speaking about prayer and explaining to them the meaning of the Gospels, St. Paul, the Ten Commandments, and so forth. As some complained that he was not qualified enough to teach others about God, Iñigo went to Salamanca to continue his studies at its famous university. From there, at the age of 38, he went to Paris and for seven years studied there: Latin grammar, philosophy and theology. To support himself during these years he spent two months each summer begging for money from the rich Spanish merchants and saving it for the rest of the year.

A Magnetic Personality attracts many good student-friends

In Paris he shared a room with Peter Faber and Francis Xavier. His magnetic personality attracted many young students to him. James Laynez, Alphonsus Salmeron, Nicholas Bobadilla and Simon Rodrigues joined him soon. He was for them a friend, philosopher and spiritual guide. With three more (Claude LeJay, Paschase Broët, and John Codure who came later), Ignatius would start the 'Company of Jesus' in 1540 to love God and serve humanity.

A Teacher and Educationist with a heart for the downtrodden

When Iñigo received his Master's degree at Eastertime in 1534, the university Latinized his name, and thenceforth he used the name Ignatius. He continued to teach the lettered and the unlettered, the rich and the poor, elders and children. He taught them about God, religion and prayer and cared for the sick in hospitals.

Iñigo was also attuned to the needs of the people around. He established the House of St. Martha to attend to the needs of the battered women. He built a home for young girls who were especially in danger of being exploited. He founded an orphanage for those who lost their parents. He built a house for those who came in search of Christ.

He started the Roman College in 1551 as a model for all Jesuit colleges throughout the world. In 1552 he opened a college in Rome for seminarians to prepare themselves better to preach Christ.

Inigo, Ignatius, becomes St. Ignatius of Loyola

Ignatius died on 31 July, 1556. When the body was made ready for visitors, there was a long line of Cardinals, Bishops and Priests, of Rome's nobility and Rome's poor, all coming to kiss the holy venerable hands of the Founder of the Society of Jesus. He was declared a Saint by the Church in 1622. The day he died and went home to Jesus, whom he loved dearly, is celebrated as his Feast Day.

NATIONAL SERVICE SCHEME (NSS)

The University Grants Commission recommended the introduction of national service in academic institutions not only to develop healthy contact between students and teachers but also to establish a connection between campus and the community. Officially, the National Service Scheme (NSS) was launched on September 24, 1969, on the occasion of the Centenary Birth Anniversary of 'Father of the Nation' – Mahatma Gandhi in 37 universities across India by involving 40,000 volunteers. The primary objective of NSS is to develop the personality and character of the youth through voluntary community service. Currently, the NSS has been implemented in 396 universities, polytechnic colleges and 47 councils of intermediate colleges/+2 level schools with 3.8 million student volunteers. NSS is managed by the Union Ministry of Youth Affairs and Sports in collaboration with the Union Ministry of Education.

Understanding the community, identifying the needs and problems of the community and involving students in problem- solving, developing a sense of social and civic responsibility, utilizing their knowledge in finding practical solutions to individual and community problems, developing the competence required for group-living and sharing of responsibilities, gaining skills in mobilizing community participation, acquiring leadership qualities and democratic attitudes, developing the capacity to meet emergencies and natural disasters and practice national integration and social harmony are the main objectives of NSS. Loyola Academy motivates and encourages students to volunteer and participate in NSS in a big way to impart social responsibility and national integrity.

ACADEMIC INFORMATION

The academic year consists of two semesters. At the undergraduate level, the curriculum is spread over three years, except B.Sc. (Hons.) Agriculture, which lasts for four years. The duration of a semester is approximately 16-18 weeks, each consisting of six working days with a day order schedule having six hours per day.

In the academic year 2016-17, the college introduced the Choice- Based Credit System (CBCS). All the degree students are expected to earn a minimum of 135 Credits for the completion of the Under graduate Degree. Besides these credits, they should also put in 30 hours of social service under PLANET Programme. Students are also encouraged to get certificates by involving themselves in NSS/NCC/SPORTS & GAMES/AICUF/ Women's Cell, etc.

The third semester students, besides undergoing the regular curriculum, also choose one Generic Elective across all the streams. These career oriented courses will make them more employable after completing their respective Degree Programmes.

In order to make the students research-oriented, all the final year students are mandated to undertake a Project Work and submit their Dissertation as well as take a Viva Voce. All these components of the Degree Curriculum under the CBCS have to be completed before one gets one's Undergraduate Degree.

NON-CGPA CERTIFICATE COURSES

- As per the requirements of CBCS, every student has to complete 2 Non CGPA Certificate Courses (NCCC). These courses are offered in addition to the regular courses of the college and are not part of the regular programme syllabus.
- Besides the college fee, students will be charged a fee for each Skill Enhancement Certificate Course (SECC) depending on the nature of the course and the resource person (trainer / expert / specialist) needed.
- A minimum of 75% of attendance is mandatory to appear for the final NCCC Exam.
- A student possessing 65% or less attendance with / without medical certificate is not eligible for appearing for NCCC final exam. There is no re-valuation for NCCC Courses.

EXAMINATIONS AND EVALUATION

The College follows a structured evaluation system that combines Continuous Internal Assessment (CIA) and Semester-End Examinations (SEE), with a weightage ratio of 40:60. (40 marks for CIA and 60 marks for SEE). This system ensures ongoing academic engagement and comprehensive end-term evaluation.

1. Continuous Internal Assessment (CIA): Continuous Internal Assessment (CIA) is to help students learn continuously, stay engaged, and improve themselves through timely feedback. The division of marks for the CIA components of **theory courses** is as follows:

Component	Marks Allotted
Mid-Semester I	12.5
Mid-Semester II	12.5
Group Discussion / Case Study / Multiple-choice Questions (MCQ's)	05
Assignment	03
Seminar /Viva-voce	03
Attendance	04
Total	**40**

i) Mid-Semester Examinations (MSEs): Two Mid-Semester Examinations will be conducted each semester. The timetable will be published in advance and communicated to all departments. Heads of Departments (HODs) are responsible for informing both faculty and students, and for reporting any discrepancies to the Controller of Examinations (CoE).

MSE-I will generally cover the first 2½ units of the syllabus, while MSE-II will cover the remaining 2½ units. Each examination will have a duration of 2 hours and a maximum of 50 marks, which will be reduced to 12.5 marks for the computation of CIA marks.

ii) Group Discussion/Case Study/MCQs: One of these three assessment components will be assigned by the respective faculty members approximately one month after the commencement of the semester. The topic or task, which is related to the syllabus, will be communicated to students well in advance. The faculty will specify a submission or completion date, in accordance with the academic almanac.

iii) Assignment: Assignments are given approximately one month into the semester on topics relevant to the syllabus. The topics will be communicated in advance, and the course lecturer will set the submission date. Students are required to submit a paper not exceeding five pages. The assignment may reflect their original work, perspective or understanding of a specific topic, or incorporate recent developments related to the topic. A broad and diverse list of relevant topics should be provided, enabling students to choose one or more topics based on their interest.

iv) Seminar / Viva-voce: One of these two components is conducted after the first mid-semester examination and before the second. In the case of a seminar, each student is expected to deliver a presentation not exceeding 5 minutes to the class on a topic relevant to the syllabus. In the case of a viva voce, a one-on-one oral examination of approximately 5 minutes will be conducted, based on either the student's submitted assignment or on a topic announced ahead of time.

v) Regularity / Attendance: Every student is expected to attend all classes and maintain 100% attendance. A student will be eligible to appear for the Semester-End Examinations only if he/she secures a minimum of 75% attendance. Failure to meet this requirement will result in the student being detained. Such a student will be removed from the rolls in the subsequent semester and must repeat the same semester in the following academic year.

In cases of serious illness or accident, students with attendance between 65% and 75% may be considered for condonation, provided prior permission has been obtained from the Principal/Vice-Principal. In such cases, a Medical Certificate from a registered medical practitioner, along with the relevant prescription, must be submitted on the first day the student returns to class. Such students will be condoned, and can appear for SEE after paying the prescribed condonation fee. Kindly note the following norms and guidelines regarding condonation:

- Medical certificates submitted late or immediately before the Semester-End Examinations will not be accepted.
- Certificates for minor ailments such as cold, cough, or fever will not be considered valid for condonation.
- Medical leave cannot be treated as On-Duty (OD) or regular attendance; it is only applicable for condonation in cases of attendance shortage, namely attendance between 65% and 75%.
- If a student is seriously ill, he/she must approach the Head of the Department (HOD) and the Vice-Principal / Principal to request the option of attending online classes to maintain the attendance percentage.

Marks are allotted for attendance to encourage students to attend classes regularly and to engage themselves in an ongoing learning process. The allotment of marks follows the scheme outlined below:

Attendance (%)	Marks	Attendance (%)	Marks
75.1 – 77.5	1	87.6 – 90.0	6
77.6 – 80.0	2	90.1 – 92.5	7
80.1 – 82.5	3	92.6 – 95.0	8
82.6 – 85.0	4	95.1 – 97.5	9
85.1 – 87.5	5	97.6 – 100	10

The above marks are scaled down to 4 marks in each course for the computation of CIA attendance marks.

Note 1: Attendance can be tracked through the ERP system. It is the **responsibility of both the student and the parent/guardian** to monitor it regularly. In case of any discrepancy regarding attendance, it is the responsibility of the student to get it rectified by contacting the HOD / Block In-charge / Vice-Principal concerned. The semester-wise attendance report will be submitted to the CoE office by the Vice-Principal, who is in charge of attendance, before the meeting for the publication of CIA results, as scheduled in the academic almanac.

The division of marks for the CIA components of **practical courses** is as follows:

	Component	Marks Allotted
i.	Attendance	05
ii.	Observation / Record Book	05
iii.	Practical Skills Acquired	10
iv.	Pre-final Practical (3 hours)	20
	Total	**40**

i) Attendance: Attendance carries 5 marks and reflects the student's regularity and punctuality in attending practical sessions, laboratory work, or other practical components as applicable to the course. The concerned faculty calculates the attendance percentage in the practical course and awards the marks based on the scheme outlined above for theory courses.

ii) Observation / Record Book: This component carries 5 marks and is based on the proper maintenance of the relevant record, such as a laboratory record, observation notebook, activity journal, or equivalent. Students are expected to document their work systematically, including objectives, methods/process, observations, analysis, and outcomes. Evaluation will consider accuracy, completeness, and clarity of presentation.

iii) Practical Skills Acquired: A total of 10 marks are allotted for the skills developed by the student during the course. This includes the ability to use tools, instruments, techniques, or methodologies relevant to the discipline, the ability to follow procedures and apply concepts in practice. Marks are awarded cumulatively based on the evaluation of the skills acquired in each practical session.

iv) Pre-Final Practical Examination: The pre-final practical examination carries 20 marks and is conducted prior to the semester-end practical examination. It assesses the student's overall understanding, application of knowledge, performance of tasks or exercises, analytical ability, and competence in presenting or interpreting outcomes, in a manner appropriate to the respective discipline.

Note 1: The faculty member handling the course will clearly communicate to the students the marks secured in each component of the Continuous Internal Assessment (CIA), for both theory and practical courses. Students are responsible for reviewing their CIA marks and getting rectified any discrepancies immediately after the results are shared. No rectification of marks will be considered after the publication of CIA results by the CoE office.

Note 2: No improvement or supplementary examinations are conducted for CIA components.

INTERNSHIPS

Assessment and Evaluation (2 Credits): Evaluation of the internship will be based on:

- Internship performance and work quality
- Supervisor's evaluation from the organization
- Internship report and documentation
- Presentation and Viva Voce

The weightage of each component will be as follows:

Internal Assessment 40 Marks

Evaluation Criteria	Marks Allocated
Project work	15
Weekly observation	5
Internal Presentation	10
Viva Voce	5
Attendance	5

External Assessment 60 Marks

Evaluation Criteria	Marks Allocated

2. Re-examination norms for absentees (CIA):

In principle, there is no provision for re-mid examination. However, under extraordinary circumstances such as an accident, grave illness, or death in the family, and for genuine reasons, the Principal/Vice-Principal may, at their discretion, decide whether to permit a re-examination on a case-by-case basis.

In such extraordinary situations, the Principal or Vice-Principal must be informed immediately, and a written permission for the student's absence from the examination must be obtained. The decision of the Principal/ Vice-Principal is final and binding.

To apply for a re-examination, the student, along with their parent or guardian, must approach the Vice-Principal with all necessary supporting documents. The Principal/Vice-Principal, in consultation with the Dean and the Head of the Department concerned, will analyse the case and take the final decision on whether to permit the re-examination. The same will be communicated to the Controller of Examinations on a case-by-case basis.

To discourage the misuse of the provision for re-mid examinations a nominal fee would be collected. And the examinations will be conducted with a reduced weightage of marks. However, the above conditions do not apply to students approved for re-mid examinations on account of college related activities like NCC, NSS, Sports, Voice for Girls / Boys etc.

11. **Supplementary (Backlog) Examinations:** Students who fail in any course in any semester may appear for supplementary examinations **only in the subsequent even semesters,** after having registered for the examinations and paid the examination fee. Supplementary examinations are not conducted in the odd semester.

12. **Revaluation:** Students who wish to have their Semester-End Examination answer scripts revaluated can do so by registering for the revaluation and paying the prescribed fee after the publication of results, within the prescribed time. The payment of fees for revaluation should be done in a single transaction for all the courses for which revaluation is applied.

    Students who do not have access to the ERP portal, for any reason, should register for the revaluation by approaching the CoE office.

No re-evaluation will be permitted for Continuous Internal Assessment components, practical examinations, projects, internships and non CGPA Certificate Courses (NCCC).

When the revaluation process is under way, the student should attend regular classes of the following semester till the revaluation results are published. If a student fails to fulfil the promotion rules after the publication of revaluation results, the student must discontinue and reappear for the examinations in the next semester.

27. Choice-Based Credit System (CBCS): Loyola Academy follows the Choice-Based Credit System (CBCS) as prescribed by the University Grants Commission (UGC), implemented from the Academic Year 2016–2017. CBCS provides a student-centric and flexible approach to higher education. The key features of this system are as follows:

i. Credit-Based Structure: Each course is assigned credits based on the number of instructional hours. Typically, one credit corresponds to one hour of lecture per week, or two hours of practical or laboratory work per week.

ii. Grading System: A 10-point letter grading system is used to evaluate student performance, with grades like O, A, B, C, D, E, and F awarded based on the marks obtained. The following table provides the criteria for awarding grades and the grade points based on the marks obtained.

Range of Marks	Grade Letter	Grade Points
85% and above	O	10
70% to 84%	A	09
60% to 69%	B	08
55% to 59%	C	07
50% to 54%	D	06
40% to 49%	E	05
Less than 40%	F	00

i. **Semester Grade Point Average (SGPA):** SGPA indicates a student's academic performance in each semester. It is calculated by dividing the total credit points earned in that semester by the total number of credits registered for.

ii. **Cumulative Grade Point Average (CGPA):** CGPA reflects the overall academic performance across all semesters of the programme. It is the weighted average of the SGPA values obtained in each semester (typically across 6 or 8 semesters, depending on the programme).

The computation of SGPA and CGPA can be mathematically represented as follows:

CALCULATION OF SGPA & CGPA:

Credit Points = No. of Credits Secured X Grade Points obtained in each course

$$\text{SGPA} = \frac{\text{Sum of Credit Points obtained in a Semester}}{\text{Total number of Credits in that Semester}}$$

$$\text{SGPA} = \frac{\text{Sum of Credit Points obtained in all Semesters}}{\text{Total number of Credits in all Semesters}}$$

Note: The Semester Grade Point Average (SGPA) is calculated **only when the candidate passes all theory and practical papers** with a minimum of an 'E' grade. A candidate receiving an 'F' grade in any theory or practical paper is deemed to have **failed** in that paper. **Such grades are not included in the computation of SGPA.**

28. **Important notice regarding examination rules and regulations:** Students are required to carefully read and strictly adhere to all examination-related rules and regulations displayed on the college notice boards and published on the college website. In addition, students must thoroughly review the instructions printed on the hall ticket and ensure full compliance during the examinations.

29. **Important Notice regarding errors:** All concerns related to errors in internal marks, results declared, mark sheet entries, revaluation, or any other examination-related matters must be submitted in writing to the Controller of Examinations within **five working days** from the date of result declaration or issuance of grade sheets (Memos). Delayed requests will not be entertained.
