As part of this it was resolved to delete one subject from **DSE-1 (Mathematical Statistics-CT18506A)** and replace it with the new subject titled **"Personal Branding and Project Building for Entrepreneurship"** with subject code **CT24506A**. The syllabus of both the subjects were enclosed in Annexure-1.
   - ❖ It was resolved to shift the **"project"** offered under **DSE-2** from the fifth semester to the sixth semester. Consequently, under DSE-2 two subjects can be offered as a replacement. One of them is by renaming and transferring the sixth semester subject **"Chemical Technology-III (CT21602)"** as **"Petrochemicals, Agrochemicals and Polymer Technology (CT24507A)"** and the other one is a new subject titled **"Emerging Software Technologies in Chemical Industries (CT24507B)".** (Enclosed in Annexure-1).
   - ❖ It was resolved to modify the syllabus of subject titled **"Chemical Technology Practical (CT18509)".** The lab experiments such as "azo dye preparation", "meta di nitro benzene preparation", "acetanilde preparation", "determination of molecular weight of acid", "estimation of glucose in the given samples" were deleted and new experiments such as "biodiesel preparation", "activated carbon preparation", "viscosity measurement", "flash point", "cloud point and pour point measurement" were added to the syllabus of Chemical Technology Practical with new subject code **CT24509.** (Enclosed in Annexure-1).
   - ❖ It was resolved to delete the subject titled **"Refractory Technology (CT18605B)"** from **DSE-3** and replace it with the subject titled **"Environmental Engineering & Safety (CT18604)"** by shifting it from **skill enhancement course-3** to **DSE-3**. Consequently, the subject **"Environmental Engineering & Safety"** is assigned a new subject code as **"CT24605B".** (Enclosed in Annexure-1).

- ❖ It was resolved to delete one subject titled **"Pesticide Chemistry (CT18606A)"** from **DSE-4** and replace it with a new subject titled "**Computer Aided Chemical Technology (CT24606A)".** (Enclosed in Annexure-1)
- ❖ It was resolved to offer new courses titled **"Chemistry-VI (CT24609)"** with "4" credits and "4" hours per week and **"Chemistry-VI Practical (CT24609)"** with "1" credit and "2" hours per week under skill enhancement course-3 to provide hands-on experience on chromatography and spectroscopy. This modification was done as per the request from industrial experts and to bring the total credits of chemistry subjects to **"30"**. (Enclosed in Annexure-1)

4. It was resolved to approve the list of examiners for B.Sc. Chemical Technology- under regulation 2024 for the academic year 2024-25. (Enclosed in **Annexure-II)**
5. It was resolved to approve the budget of **Rs. 35,000** (Thirty-Five Thousand Rupees) towards the requirement of library books for AY: 2024-25. (Enclosed in **Annexure- III)**
6. It was resolved to approve a budget of **Rs 60,000** towards organizing an international conference/Workshop in the AY: 2024-25.
7. It was resolved to sanction a budget of Rs. **12,50,000** (Twelve Lakh Fifty Thousand Rupees) for **AY: 2024-25.** (Enclosed in **Annexure- IV)**
8. It was resolved to recruit one non-teaching staff (Technically qualified with a Diploma / B.Tech. Chemical Engineering qualification) for the smooth running of chemical engineering laboratories (mass transfer operations, chemical technology, heat transfer, fluid mechanics, mechanical unit operations, solar lab, and chemical reaction engineering). **(Annexure-V)**
9. The university nominees for BOS, **Prof. J. Ramachander** (Professor of organic chemistry), **Prof. B. Manohar** (Professor of physical chemistry) and subject expert **Prof. B. Rajam** (Professor of Chemical engineering) has enquired about the rationale behind the reorganization of papers and suggested key topics to be incorporated into the syllabus. All of them along with the industry expert **(Dr. D. Nandan Kumar)** applauded that the overall syllabus of the B.Sc. Chemical Technology along with the current modifications are very strong and very much relevant to the current trends.
10. The subject expert **Prof. B. Rajam** appreciated the course structure composed of maths, physics, and chemistry blended with core chemical engineering subjects which are in line with the industry requirement and the current modifications to the syllabus incorporating computers and software technologies related to chemical engineering were more appealing. He suggested to consider incorporating more computer related papers from first year to final year and then changing the title of the course so that students may be attracted to take the admission in to the course.
11. **Fr. A. Prabhu**-Vice Principal, **Dr. T. Suchitra Naidu**-Dean of Academics, and **Dr. K. Rama**-IQAC Coordinator clarified the academic doubts asked by the experts related to admissions, student perception, and student strength.
12. Finally, **Dr. P. Thirupathi**, Dean School of Science thanked all the members for their key inputs and the meeting came to an end.

The above resolutions were unanimously approved in the meeting.
