Semester Report

Loyola Academy started the Remedial teaching which is an educational programme for increasing the academic performance of poorly performing students in a curriculum. Remedial teaching is finding specific learning difficulties in low achieving learners who are lagging behind in academics and providing them with necessary support and guidance to bring their academic performance closer to the required standard and to prevent them from occurring in future.

Remedial classes are conducted in different Subjects to support the Students in clearing their backlogs. Students shown lot of interest .Faculty gave tips as well as material for the students. More than 60% of the students who have attended got benefits and they passed in the exams.

To increase attendance for the classes a brief motivation lecture is organized with the key note address by HODs of their departments.

Objectives of Remedial classes:

- Remedial classes can help students to improve their academic performance, including their grades and test scores.

- Remedial classes can help students build confidence by helping them to understand subjects that were previously difficult.

- Remedial classes can provide personalized attention to help students address difficulties in particular subjects.

Principles of Remedial Teaching followed by Lecturers:

Departments Remedial classes Timetables,Reports Photos& Classes

1.SCHOOL OF AGRICULTURE

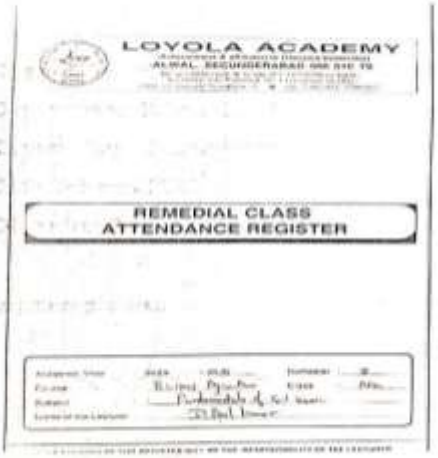

1. B.SC(HONS),(AGRICULTURE)

The Agriculture Department organizes remedial classes for students who have failed in one or more subjects in semester examinations. These classes are designed to support academically weak students by helping them improve their understanding of fundamental agricultural concepts and successfully clear their backlogs.

2.SCHOOL OF INFORMATICS

1. B.SC(COMPUTER SCIENCE & ENGINEERING)-

The Computer Science and Engineering (CSE) Department conducts remedial classes specifically for students who have failed in one or more subjects in the semester examinations. These classes are aimed at helping such students overcome their academic deficiencies, strengthen their understanding of key concepts, and successfully clear their backlogs in subsequent attempts.

4. B.SC(COMPUTER SCIENCE & COGNITIVE SYSTEMS)

Remedial classes for undergraduate students in Computer Science and Cognitive Systems are designed to build a strong foundation for learners who need additional support in understanding core concepts.Through interactive sessions, practical exercises, and simplified explanations, these remedial classes aim to bridge knowledge gaps, enhance confidence, and prepare students for advanced studies in Computer Science and Cognitive Systems.

6. B.SC(MATHS,STATISTICS &COMPUTERSCIENCE)

The performance analysis of undergraduate students in the MSCS (Master of Science in Computer Science) preparatory courses indicates that several students have struggled to achieve the expected academic standards. hese shortcomings

highlight the need for structured remedial classes aimed at reinforcing essential concepts, providing hands-on practice, and improving logical and computational skills. Such interventions are essential to help students overcome learning gaps, build confidence, and successfully meet the academic requirements of the MSCS program.

7. B.SC(COMPUTER SCIENCE &CLOUD COMPUTING)

The performance review of undergraduate students in the Cloud Computing department reveals that a significant number of learners have not been able to achieve the expected academic standards. The primary reasons for this include gaps in foundational knowledge such as computer networks, virtualization, basic programming, and cloud service models.This course conducted remedial classes for slow learners ,clear the doubts for students to increase their percentage in subjects and to get good score .

9. B.SC(COMPUTER SCIENCE & MACHINE LEARNING)

The B.Sc. Computer Science and Machine Learning (CSML) degree program combines the fundamentals of computer science with the principles of machine learning. Students will gain an in-depth understanding of topics such as algorithms, data structures, artificial intelligence, programming, databases, and software engineering.

To support students in improving their academic performance and scoring better marks in examinations.

To strengthen students' understanding of the fundamental concepts of Problem Solving in Programming using C.

To enhance students' logical thinking and problem-solving skills through programming practice and guided exercises.

To improve students' understanding of major programming constructs such as variables, operators, control statements, loops, functions, and arrays.

3. B.A(ECONOMICS,PUBLIC &COMPUTER APPLICATIONS)

The programme has been designed with an interdisciplinary approach with an overall goal for holistic development of student. The programme fulfills needs of the present job market.The performance review of undergraduate students in the Cloud Computing department reveals that a significant number of learners have not been able to achieve the expected academic standards.This course conducted remedial classes for slow learners ,clear the doubts for students to increase their percentage in subjects and to get good score .

4. B.A(PSYCHOLOGY,ENGLISH LITERATURE &JOURNALISM)

Remedial classes for undergraduate students in the B.A. Psychology program are designed to provide additional academic support to students who face difficulties in understanding core psychological concepts. These classes aim to strengthen foundational knowledge, enhance critical thinking, and improve practical application skills in areas such as research methods, cognitive processes, and behavioral studies.

6.SCHOOL OF COMMERCE

1.B.COM(BUSINESS STUDIES)

The Department conducts remedial classes, provide course notes for students especially the slow learners. Further faculty members revise the tough topics as per the students requisition and provide question bank and discuss the way of presenting the answers in the exam to score marks. Extra lab sessions are conducted. Additional library books are provided to bring improvement in slow learners. Extra classes are organized to clarify doubts. Critical topics are re-explained for better understanding by the students. Appropriate counselling with additional teaching is done which eventually results in students attending the classes regularly.

7.SCHOOL OF MANAGEMENT

1. BBA(REGULAR)

BBA programs typically cover a range of topics, including accounting, finance, marketing, operations management, organizational behavior, and entrepreneurship. Slow learners are provided with remedial coaching in areas of difficulty. Further, the sessions are made more interactive to increase student interaction and thereby, facilitate understanding. Students are also encouraged to help each other and through this, understand concepts better.

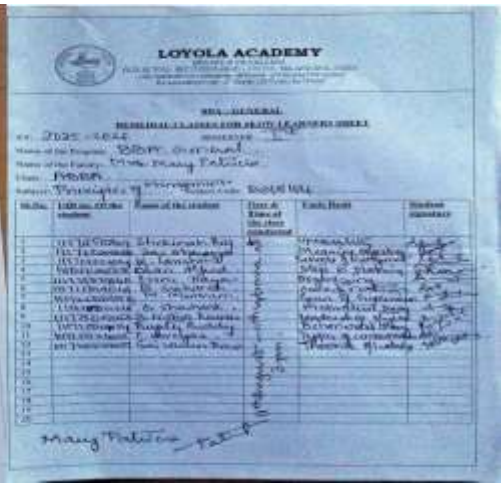

2. BBA(ENTREPRENEURSHIP DEVELOPMENT)

This course enables the candidates to be a righteous entrepreneur. This program helps them in gaining knowledge to convert innovations into economically viable goods and services. Remedial instruction is implemented to offer targeted academic support to learners who need extra guidance in learning essential concepts and skills. Its primary purpose is to evaluate overall performance of the student, recognize areas where understanding is limited, and pinpoint specific topics that require more teaching.

Report on the Conduction of Remedial Classes for Postgraduate Students

Introduction

The Departments of M.SC(ORGANICHEMISTRY),M.SC(BIOTECHNOLOGY), M.SC(FOOTECHNOLOGY&MANAGEMENT),M.SC(FOODSCIENCE& TRITION),M.C.A,M.SC(DATASCIENCE),M.B.A organized remedial classes for Postgraduate students during the academic year 2024–25. These classes were designed to provide additional academic support to students who required assistance in specific topics identified through internal assessments and classroom performance.

1. MCA

The remedial schedule was prepared by the faculty after analyzing mid-semester test results. Classes were held during the period from 20/02/2026 to 25/04/2026 , either after regular sessions or on weekends. Faculty members of the department volunteered to conduct sessions on core subjects such as DeepLearning, Operational Research and MachineLearning. Attendance of students was maintained, and feedback was collected at the end of the sessions.

2.MBA

Remedial classes were organized for slow learners in various subjects during the Even Semester to ensure better learning outcomes. These classes were designed to provide additional support to students who were facing difficulties in understanding the course material. The objective was to bridge the learning gap, clarify concepts, and improve their overall performance.

Inclusive remedial teaching techniques were followed to cater to the diverse learning needs of the students. Differentiated instruction was used to ensure that each student could engage with the material in a way that suited their learning style, while scaffolding techniques helped build knowledge step-by-step.

Summary of remedial classes conducted:

Date(s)	Course Code & Title	Faculty In-Charge	No. of Students	Mode (Online/Offline)
24/8/2025	M.Sc.DataScience	Dr.Ch Surya Kanthi,	3	Offline
13/11/2025	M.Sc.DataScience	Bhanu	2	Offline
16/07/2025	MBA	Ms. P. Rajiyha	12	Offline

Conclusion:-

Remedial classes play a crucial role in Loyola Academy by providing additional support and assistance to students who are struggling academically.Students with varying learning needs and abilities can benefit from these classes, as they cater to their specific requirements. By offering targeted interventions, remedial classes ensure that no student is left behind due to their academic challenges. This inclusive approach fosters a sense of belonging and encourages students to actively engage in the learning process, boosting their self-confidence and motivation.
